Washington, D. C. 20231

SIR:

Please amend the above-identified application as follows:

Please add the following new claim:

Claim 28 (New) In combination,

(a) a vehicle having an area for receiving a wheelchair, and

(b) means for securing a wheelchair in said area to said vehicle, wherein said

means for securing is permanently attached to said vehicle and comprises:

(i) means for engaging a portion of said wheelchair under tension, said means for engaging being locked to said vehicle at a predetermined location, and

(ii) a movable securing element having mounted thereon a housing and a flexible strap, said flexible strap having one end adjustably received in said housing and an opposite end adapted to engage a portion of said wheelchair in said area under tension, said movable securing element being movable with respect to said vehicle between an operating position wherein said housing is locked to said vehicle at a further location for
